FIRE'S DREAD WORK CAUSES MUCH LOSS

CITY OF GALOFF COMPLETELY DESTROYED.

Detroit Firemen Killed By the Fire of Last Night—Chicago Has Two More Big Blazes in Addition to the Disastrous Lumber Conflagration of Wednesday.

VIENNA, Aug. 3 —The city of Galoff, Hungary, was burned today. Only fifteen houses are left standing and a host of families are left homeless.

DETROIT, Mich., Aug. 3.—One fireman was killed and six were injured yesterday afternoon in a fire which destroyed the planing mill and lumber yards of E. G. Richards & Co. and Hunton, Myles & Weeks. The property loss will amount to $60,000. The blaze was discovered shortly after 3 o'clock. The water supply was so poor that the firemen were hampered. They succeded in preventing the flames from spreading to adjoining factories, but several freight cars with their contents were destroyed before they could be removed.

At 4 o'clock two squads of pipemen were playing streams at the southeast corner of the mill, when a portion of the wall gave way and a half dozen firemen were caught by the falling brick, and the following were killed and injured:

EUGENE M'CARTHY, unmarried, pipeman of No. 19 company.
HENRY TRAPP, pipeman No. 6.
GEORGE W. LYONS, pipeman No. 6.
LIEUT. LOUIS R. TATE, No. 6.
THOMAS SCHIEBLE, pipeman No. 19.
CHARLES BOBERITZ, pipeman No. 19.

The Richards planing mill was owned by H. A. Hunton of the firm of Hunton, Myles & Weeks, and was leased to S. J. M, Gates of Bay City, who also owned the lumber in that portion of the yard. The plant was operated by Richards & Co. for Gates. The property of Hunton, Myles & Weeks, which was consumed, consisted of lumber and small buildings. Their loss is about $20,000. The loss on the Richards mill and yards is estimated at $35,000. Hunton, Myles & Weeks are quite fully insured. The Richards mill is insured for $12,500. Mr. Gates, owner of the lumber adjoining, is in Bay City and the amount of his insurance is not yet learned.

FLAMES ROAR AGAIN.

Chicago Visited by Three More Whirlwinds of Fire.

CHICAGO, Aug. 3.—The lumber district was swept again last night by a fire similar to the conflagration of Wednesday night. The conditions were exactly the same. The John Spry Lumber company, occupying 1,500 feet of frontage on Ashland avenue, north of the bridge, was fired by flying embers from Wednesday night's burned district and 8,000,000 feet of lumber, out of a total of 24,000,000 feet were burned, causing a loss of $150,000. The fire was not without accident, for the intense heat and the flying lumber made the fight exceedingly dangerous. Peter Fleming, a pipeman of Engine company No. 29, while riding on the engine across Ashland avenue bridge inhaled flames and his skin was cooked by the terrible heat. The hair was burned off the horses and they were rendered helpless

Five manufacturing firms occupying the seven-story brick building, Nos. 158-160 West Van Buren street, were burned out early last evening and the building was destroyed. The loss on the building is estimated at $60,000 and the loss to the occupants is estimated at $133,000. The insurance is unknown.

Fire last night destroyed the livery and cab stable of J. M. Hartman, 128 Thirtieth street, with its contents, In the stable were six horses, all of which were burned. The building was worth $2,000. The horses and carriages were valued at $5,000. The origin of the fire was not known. No one was hurt.

About two million dollars is the total of damage done by the fire of Wednesday night in the lumber district. From Ashland avenue to the west of Robey street the great piles of lumber and the manufacturing plants scattered among them have been simply wiped out; the burned district is a blistered Sahara.

Two Firemen Killed.

PHILADELPHIA, Pa., Aug. 3.—Two firemen were killed and five injured in a fire yesterday which destroyed the mill building at Randolph and Jefferson streets. The fire is supposed to have originated from a spark struck by a nail in the picking machine on the second floor. After the fire was put out seven firemen entered the third floor and turned their hose on a large quantity of cotton that was stored there. Without the slightest warning the floor gave way with a crash, precipitating the men to the first floor, where they were buried in the debris. Two of them were taken out dying, having been smothered by the bales of cotton. They died on their way to the hospital. The five other firemen received less serious injuries. The coroner will investigate the condition of the floors and walls of the building. The loss on building and contents will aggregate $55,000; fully insured.

FRANCE TO KEEP OUT OF THE COREAN WAR

DECLARATION OF NEUTRALITY WAS MADE TODAY.

She Wants the Powers to Refrain from Interfering With the Combatants—No New Battles Reported But Accounts of Earlier Ones Are Fully Confirmed.

LONDON, Aug. 3—France is the first government to accept the invitation to observe strict neutrality during the Chinese-Japanese war. There have been no new battles reported from the seat of the Chinese war. Reports concerning the former ones have all been confirmed.

SHANGHAI, Aug. 3.—It is estimated that more than 2,000 Japanese were slain by the Chinese last Sunday near Yashan. A terrific battle was fought and the victory of the Chinese forces was complete, the Japanese withdrawing to Seoul.

The Chinese forces were commanded by Gen. Yes.

Twenty thousand Manchurian Chinese troops have crossed the Corean frontier and are marching upon Seoul.

In consequence of the declaration of war upon China, proclaimed by Japan yesterday, the Chinese minister will quit Tokio tomorrow.

The Japanese flag was hauled down from the consulate here. The light has been removed from the mouth of the Ning Po river.

It is rumored here that eight Russian warships with troops aboard have left Vladivostock under sealed orders.

According to report a boatful of men escaped from the transport Kow Shung before she went down and reached Shopian island in safety.

SENATE WHITEWASH WAS THICK.

Not a Sugar Stain Can Be Seen Through the Alabaster Coat

WASHINGTON, Aug 3.—Senator Gray, chairman, presented the report of the sugar investigating committee to the senate yesterday and asked that the committee be discharged. The main report is signed by all the members of the committee, but Senators Lodge and Davis present a supplemental report and Senator Allen also presents his own views on some features of the case. The report, which has the approval of the full committee, recites the causes which led up to the investigation and quotes the article from the Philadelphia Press on which the charge against senators was based. It also recites the facts which have already been published as to the refusal of the correspondent, Edwards, to answer questions put by the committee. Secretary Carlisle is exonerated and the parts of the article reflecting on him are declared to be without foundation, "except that it is a fact, according to Secretary Carlisle's testimony, that he did, at the request of Senator Jones, of the finance committee, draft an amendment to the sugar schedule, a copy of which as described by Mr. Carlisle is attached as an exhibit to the testimony."

The conduct of Mr. Edwards, says the report, in publishing specific charges against public men without having personal knowledge of the fact calls for the serious reprobation of the senate.

TARIFF WAR STILL ON.

Conferrees Seem to Be as Far Apart as Ever.

WASHINGTON, Aug. 3.—The end is not yet reached. It was in sight Wednesday—or, rather, the senate and house conferrees thought they saw it.

Yesterday the conferrees met again and at 2 o'clock they adjourned without reaching an agreemet.

Senator Brice thinks an agreement will be reached this week—substantially in the senate's favor. Senator Gorman looks for a formal report of disagreement within two days. Senator Hill believes there will be no bill. Senator Teller says openly that President Cleveland does not want a bill and that his letter to Wilson shows between the lines that he does not.

So far as anything was done at the conference yesterday the senate and house are as far apart as ever. Still the demand of the treasury for some legislation which will produce revenue has been so insisted on that both sides to the controversy are beginning to admit that some sort of a bill must be passed at all hazards. This means in effect that the house will do most of the compromising.

Tabled Chandler's Resolution.

WASHINGTON, Aug. 3.—The senate yesterday by a viva voce vote tabled Mr. Chandler's resolution to investigate the Dominion Coal company of Nova Scotia. Senator Chandler, who believes that President Cleveland's friends are the chief stockholders in the company, and that because of that the President desires free coal, made a long speech in support of the resolution.

PACKING HOUSES CLOSED.

Over 10,000 head of hogs were received at the yards to-day, but packing-houses instructed their buyers not to buy at any figure. The only trading done was by shippers. Little effort was made to-day toward a settlement of the strike, and the situation was practically unchanged.

FOR KILLING CARNOT SANTO MUST DIE

SENTENCE PRONOUNCED ON HIM THIS AFTERNOON.

"Vive Anarchie" Yelled the Assassin As His Doom Was Made Known—Presiding Judge Had Criticized the Anarchist Law Proposed by the Chamber of Deputies.

LYONS, Aug. 3.—Cesario Santo, President Carnot's assassin, received sentence of death this afternoon. When the sentence was pronounced he shouted "Vive anarchie." The removal of the culprit from the the St. Paul prison to the court was without incident. M. Breuillac, who presides over the court, is the judge who drew much criticism upon himself by condemning the bill for the suppression of anarchistic crime which was recently passed by the chambers. Addressing the jury at the opening of the assize, July 23, M. Breuillac used the following words: "While the chamber of deputies, acting upon the proposals of the government, is endeavoring to relegate to the common law courts certain crimes which you were occasionally privileged to be called upon to try, we, in this court, by the aid of twelve honest and free citizens summoned from the bosom of the nation, will punish the murderer of yesterday and endeavor, according to the measure of our power, to prevent the peril of to-morrow."

ALL QUIET AT PULLMAN TODAY.

No Increase In the Force Since Yesterday—Few Old Men Seen.

PULLMAN, Ill., Aug. 3.—When the first whistle blew at the Pullman works at 5 o'clock yesterday morning crowds of strikers began to gather along the boulevard to watch the doors of the works open. Shortly after 6 o'clock workmen began to arrive in groups of two and three. About fifty came on a train from Chicago, and a number of others were recognized by the strikers as being Harvey men. As soon as the 6:30 whistle blew and the work inside began the crowds melted away and during the rest of the day everything was as quiet and peaceful as a Sunday afternoon.

About 300 men, according to Manager Middleton, went to work. Of these some were old employes and "strawbosses," who have been acting as watchmen since the strike began.

The strikers are firm in their determination to maintain the struggle to the last. It was the general opinion among them that the company had secured practically no skilled mechanics. None of the local unions would admit that any of their men had deserted the ranks. One of the strikers was of the opinion that a few men might possibly go back, but it would only be to stay a month or two and make enough money to get out of town.

Mayor Hopkins made a trip through Pullman to investigate the advisability of withdrawing the troops. He was of the opinion that if everything remained quiet they would probably be ordered home to-day or Saturday.

A. R. U. CONVENTION.

Strike Question Will Be Settled in the Meeting To-day.

CHICAGO, Aug. 3.—It is the opinion of the leading delegates to the convention of the American Railway Union that at to-day's session the strike will be shorn of its national character and that whatever fight is made by the organization in the future will be on separate railway systems and under the management of system officers. Many of the delegates think that more can be accomplished in this way than in any other and by adopting this method the executive officers of the organization will be relieved of much of the responsibility and the men directly interested will be in a better position to gain information as to what is being done.

It is probable that some of the systems will return to work, while it is said to be nearly a certainty than the strike will be pushed to a final ending on others.

The delegates from the far west were almost to a man of the opinion that they would win the fight. They said that the strike on the western roads was as much in force as it was the first day, and they said that with each passing day the prospects of a a favorable settlement became brighter.

There was a feeling among the delegates that even though the men might return to work on all the other roads the strike would be continued against the Santa Fe. This is for the reasons, it is said, that the receivers have been cutting wages, that the road is behind in salaries, and that it has been especially active in the prosecution of the officers of the union.

After appointing a press committee the convention adjourned until 9 o'clock this morning. It is believed that the convention will complete the work before it to-day and that a final adjournment will be taken this evening.

Politics crept into the deliberations of the convention in an indirect way several times, and the sentiment of the delegates was that the railroad men of the country should support the populist ticket this fall.

One of the Cook Gang Killed, One Wounded and One Captured.

SAPULPA, I. T., Aug. 3.—Two more of the Cook gang of desperadoes, to which is laid the bank robbery at Chandler Tuesday, have paid the penalty of crime. At this point, which is the terminus of the Santa Fe railway, a posse that had been chasing the gang came across Henry Munson and Lon Gordon yesterday forenoon. Munson sighting the officers, the desperadoes immediately gave battle. The officers, however, had the drop on them, and the second volley from their Winchesters brought Munson to the ground. Munson died instantly. Gordon was fatally wounded. He refused to tell of his comrades' whereabouts. Another of the gang was captured. One of the marshals was shot and severely wounded.

SUFFERING AT PHILLIPS, WIS.

Bedding and Clothing Give Out and People Shiver in the Tents.

PHILLIPS, Wis., Aug. 3.—The suffering here is greater than at any time since the fire of last Friday. A cold wind blew over the lake from the northeast all day, and the thermometer dropped to fifty degrees. There was such a demand for bed covering and clothing that the supply on hand was completely exhausted early in the day and many were shivering in the tents and shacks on the hillside. There are very few stoves and the men built large fires around the tents to help keep warm. It is feared the exposure and cold weather will increase the sickness among these destitute people.

SUNDRY CIVIL BILL PASSES.

Only One Appropriation Bill Now Remains.

WASHINGTON, Aug. 3.—But one more appropriation bill—the deficiency—remains to be acted on by the senate, the sundry civil having been passed yesterday after a three days' discussion. The most important amendments adopted were the increase of the quarantine fund from $624,000 to $1,000,000, and donating 1,000,000 acres of "desert" lands to the states to which the desert land laws apply, as well as to Nebraska, Kansas, Utah, Arizona, New Mexico and Oklahoma. Among the petitions presented was one from members of the "United States Industrial Army," now encamped near Washington, which Mr. Peffer presented. It was referred to the committee of immigration and labor.

The report of the conferrees on the District of Columbia appropriation bill was agreed to. The Hatch anti-option bill was reported to the senate by Mr. Washburn from the committee on agriculture and placed on the calendar. Mr. George objected to the bill because he considered it inadequate to accomplish the desired reform.

The general deficiency bill was taken up, but was laid aside and the senate at 5 o'clock went into executive session and at 5:10 adjourned.

'FRISCO NIGHT TRAIN HELD UP.

Bandit and Express Messenger Exchange Bullets at a Lively Rate.

ST. LOUIS, Mo., Aug. 3.—The 'Frisco night train from St. Louis was held up at Eureka, a station thirty miles west of here, at 9:30 last evening. As far as known only one man was engaged in the robbery. He had placed a bomb on the track. This promptly stopped the train and the bandit opened fire on the express car, which was in charge of Messenger Ferguson. The messenger promptly returned the fire and a lively fusillade was kept up for a few moments. Both men were injured only slightly, however. The robber made his escape to the woods and Messenger Ferguson was taken to Pacific and the car turned over to another messenger, when it passed on its way. It is expected the bandit will be captured before long on account of the bloody trail he left.

EDGERTON, Aug. 3.—The drouth was broken in this section Wednesday by one of the heaviest rains of the season. It will revive the pastures which were drying up, and will be of untold benefit to the corn crop. The rain was accompanied by much hail, and tobacco in many places is badly injured. The hail seems to have covered a large area as reports of much damage are being received from Pleasant Springs, Albion Prairie and the vicinity of Cooksville and Stoughton. Many fields have already been topped and these were nearly ruined. In some localities hailstones six inches in circumference were reported. Probably a third of the standing fields in the track of the storm will be permanently damaged. A good many sheds have also been blown down and wrecked though the result and amount of the loss can hardly yet be estimated.

Vacation For Rev. Mr. White—Serious Accident to Thomas Moyle.

FAIRFIELD, Aug. 3—Pastor White is taking a much needed rest and vacation. Miss Gertrude Dykeman returned from Iowa last Saturday. Mrs. Alden and son, of Chicago, have been visiting friends in this vicinity. C. Dykeman returned from Riceville, Iowa, last week, and reports his son-in-law, Marion Smith, improving in health. Mrs. Ivan Fletcher and two children, of Johnstown, are visiting Mrs. Fletcher's parents, Mr. and Mrs J. C. Serl. Rev. J. Reynolds, of Clinton, will preach here Sunday afternoon. The visitors at church last Sabbath were: Mrs. Nellie Gardiner, of Shopiere; Mrs. Laura Sexton, of Darien; Lula Holstien, of Allen Grove; Miss Myrtie Palmerton, of Chester, Iowa; Miss Bertha Brotland, of Richmond; and Barney Baldwin, of Clinton. Thomas Moyle, of Iowa, formerly of this place, met with quite a serious accident recently. While driving on a binder, the horses became frightened and ran away, throwing him under the machine and severely cutting and bruising him. An attentive audience listened to an interesting discourse by Elmer Serl, of Delavan, who occupied the Methodist pulpit last Sunday. All of Elmer's friends predict a promising future for him. E. G. Chesebro died at his home near this village on Tuesday, July 24, after a long, painful illness. He was born February 20, 1812, in New York, and came to Wisconsin in 1852, where he had since resided Deceased was in feeble health for some time, and last February he fell and fractured his hip, since which time he has been helpless. He leaves three daughters, Mrs. Crippen, Mrs. Flowers and Mrs. Sherwood; and one son, Edwin J. Chesebro. His wife died last April. This is the third home in our midst in which there have been two deaths since last January. The steam threshers are clearing the grain fields very rapidly. Barley runs from twenty-five to thirty-five bushels to the acre, and oats are the banner crop.

EMERALD GROVE SHOP SOLD.

Blacksmith Heller Makes a Changhe—Drouth Forces Farmers to Feed.

EMERALD GROVE, August 3.—E. Heller has sold to Philo Kemp his blacksmith shop and property relative to the business. Pastures are drying up and many farmers are feeding hay and corn fodder. It must rain very soon in order to have the corn crop ear out. Tobacco in many places will not pay for harvesting. We had a light shower Wednesday afternoon. While doing some good locally it would not reach the roots of corn, potatoes and grass which need moisture. Mrs. G. Hammond and family have been visiting relatives around Waukesha. Both Mr. and Mrs. Hammond are expected home next week. Steel stringers were placed across the bridge here yesterday and now teams can cross with safety. For some time back the bridge was considered unsafe for loaded teams. A young gentleman and lady visiting here last Thursday concluded to spend an afternoon at Rocky Dells. While there their horse wandered away and was found at Lake Geneva Saturday evening The young people returned at starting point about midnight, having got the loan of a horse near by. A number of cases of whooping cough are reported in and about the town. Every threshing outfit is hard at work and it won't be but a few days till threshing is done. Grain is yielding well and the quality is above the average. Chinch bugs are doing considerable damage to the corn.

ATHLETICS DOWNED BY MILWAUKEES.

"ROOTING" COULDN'T SAVE THE HOME NINE.

Visitors Fielded Like Clock Work and Batted at Moments When Base Hits Were the One Thing Needful—Council Bluffs Maroons to Play Two Games Here.

Six hundred "rooters" dug their toes into the planks, gritted their teeth, squinted their eyes and drove their finger nails deep into their palms. It was all in vain. They couldn't make the Athletics win. The Milwaukee league nine has been reorganized until it is as good as many of the national league teams. Its fielding yesterday was sharp, clean and brilliant. The throwing was good and the batting was done at critical moments. Janesville boys played fast ball and had a good chance of winning until the seventh inning when Clingman and Carey batted grounders to Doran that were too hot to be handled. Twitchell hit a long fly to the left field fence and Field cleared the bases with a long fly over the fence. The score is as follows:

Milwaukee	2	0	0	1	2	0	4	1	0	—10
Janesville	2	0	0	0	0	2	0	1	0	— 5

Base hits—Janesville, 8; Milwaukee, 6. Errors—Janesville, 7; Milwaukee, 3. Earned runs—Janesville, 2; Milwaukee, 2. Home runs—Morrissey Field. Three base hit—Long. Two base hit—Long. Double plays—Doran, Connors, Morrissey. Base on balls by Schicker, 7. Struck out—Schicker, 3; Kloff, 9. Wild pitch, Schicker. Time—2:10. Umpire, McGinley. Scorer, Clark.

The Council Bluffs Maroons, Iowa's crack nine, will play the Athletics Saturday and Sunday afternoon. They are touring the northwest and are beating everything.

The ball game between the Y. M. C. A. team and the fire department which was set for today has been postponed until next Friday at Athletic park.

Why They Fought.

Out on Frederick avenue live two boys whose respective fathers are men of position and influence, and the families are in the exclusive swim. But what boy ever cared for crest, or belt, or spur of knight when there was an opportunity for a row?"

"My pa," said the one in ringlets, "has a brush that he got from a king in Europe, and he's going to brush my hair with it next Sunday, maybe, if I am a good boy, he says."

"That's nothing," retorted the boy who had a sandpaper cut on his hair. "My pa has a stick about as long as my arm that he got from the pope in Rome, and I get brushed down with it purty near every day when I ain't good. You ain't in it with me with your old hair brush."

And then they clinched and rolled in the dirt.—Chicago Herald.

"As soon as my trade picks up a bit,
I am going to advertise."

"As soon as my vessel reaches port,"
Said the skipper with a wail—
"As soon as my vessel reaches port,
I am going to set my sail."

"As soon as my field of grain is grown,"
Said the farmer, sore in need—
"As soon as my field of grain is grown,
I am going to sow the seed."

"As soon as the man is well and strong,"
Said the doctor drawing close—
"As soon as the man is well and strong,
I will give him a curing dose."

I'll pray for its salvation."

The Big Store

WHAT a fine time this would be just now during the quiet season to have a dress suit made. We would have lots of time to design it. The tailor would have lots of time to make it and then when the time comes when you need it you could be perfectly happy and unconscious because your suit would be as good or better than the rest of people hereabouts.

We have just as good a line of these goods as at any time of the year and are willing to make a reduction in prices for this month and next to keep our men busy.

Warlike Movements.

New important harbors on the North sea are projected by both Belgium and Germany. Belgium wants to make a large port at Heyst, the little fishing place beyond Ostend, best known as a quiet bathing resort and as a spot where the old form of Viking ship can still be seen in the fishing vessels. Antwerp is up in arms at the idea of such a rival. Then Germany proposes to develop Cuxhaven into a big port of war, feeling that since the development of her navy she is badly off with only two such harbors—Wilhelmshafen on the North sea and Kiel on the Baltic. Cuxhaven has the advantage of being at the mouth of the Elbe and close to the entrance of the North Sea canal. Emperor William would like also to see the coast connected with the interior by a network of canals which should unite the big rivers of the empire. Unluckily parliament will not vote the necessary funds for the latter scheme.

A man named Whitman, who was found drowned in the hot bath at Rotorua, Australia, was in the habit of experimenting how long he could keep his head under water. He was attempting this experiment and ventured too long, and got overpowered with the fumes.

While alone in the house the two little sons of Herman Gunter, near Somerset, Pa., pulled a shotgun from its place on the wall and in falling it was discharged, the load shattering the hip of one child. Amputation was necessary and the child died from the shock. The children were only three and five years old respectively.

One hard working woman in New York earns her living at least in part as book broker. Her specialty is Americana, and by an industrious study of catalogues, a laborious inspection of old books, maps, and a sharp outlook upon the needs of libraries and other book buyers, she is able to buy and sell a considerable number of valuable books within a year.

On the Safe Side.

Everybody knows that it is a good place to be, but everybody does not take measures to be there. An efficient preventative lacates us on the safe side of incipient disease, and there is no one more reliable than Hostetter's Stomach Bitters in cases where the kidneys are inactive, which is but the preliminary to various destructive maladies, which disregarded have a fatal termination. Bright's disease diabetes, dropsy, oedema, are but the outgrowths of neglected inaction of the kidneys and bladder. They should be checked at the outset with the Bitters, which will prevent their progress by arousing the renal organs to activity, and thus place those who resort to this saving medicine on the safe side. This preservative of safety also conquers constipation, liver complaint, malarial fever, nervousness and dyspepsia.

We have made arrangements whereby we can furnish Gazette subscribers with this splendid history of twenty-six parts at ten cents a part. These twenty-six parts will contain over one thousand war pictures and will make two handsome volumes when bound.

Many official documents of priceless historic value are quoted in full in the copious foot notes, such for instance as Lincoln's inauguration speeches, articles of federation of the early states, constitution of the United States, ordinance of secession, and many important papers, speeches, etc The war story is consecutive and very fascinating. The introductory chapters, leading up to the struggle, and the chapter on the reconstruction period, are by some of the first writers of the age.

THE SOAP BUBBLE.

Cause of the Wonderful Change of Color in the Film.

Why is it that the colors of a soap bubble change as the film gradually alters in thickness? asks Longman's Magazine. Another cause of color is here involved—that of interference. If a stone be thrown into a smooth pond a circular wave is produced, gradually widening toward the end of the pond; if a second stone be thrown into the pond, a second wave will be produced, which will influence the first. If the stones be dropped in simultaneously at the same spot, the waves will just be doubled in height; and if the second stone be thrown in exactly a wavelength behind the first, the same effect would be observed. If, however, the second stone be thrown into the water exactly half a wavelength behind the first, the motion of the water will be destroyed.

Similarly with light; when light impinges on the soap bubble, part of it is reflected from the exterior surface, and part enters the film and is reflected from the interior surface. This latter portion traverses the water medium between the two surfaces twice, and is, therefore, kept behind the first reflected ray. The two sets of rays interfere with each other, and produce a colored light, instead of a white light. Other waves again may destroy each other and extinguish the light. Some of the constituent colors of the impinging white light — formed by their passage through the film—interfere so as to destroy each other, while others remain unaffected. As the film diminishes in thickness, the colors must necessarily vary.

In this way is accounted for the marvelous rarety of beauty of colors in the soap bubble, the iridescense of oil upon water, the changing color of steel when being tempered, and the gaudiness of some insects' wings.

FINGER PRINTS.

Value of These Marks as Certain Proof of Identity.

When a finger or a finger print, is closely examined under a lens of only moderate power, it is seen to abound in minute peculiarities. These are caused by the branchings of some of the ridges; the sudden appearance of new ones; the formation of rings, or ovals, like eyelets, and the abrupt stoppage of ridges without any apparent cause.

It is in these countless little peculiarities even more than in the general character of the pattern that the value of finger prints as proof of identity lies, says All the Year Round. For these appearances, however minute, do not change in the smallest particular during life. A pattern may be traced on the fingers of the babe when born; it will be found the same on those fingers when he has grown to manhood, and may be imprinted from the fingers of the dead without change in the smallest point, though 100 years should intervene between birth and death.

The pattern grows together with the finger. Its proportions vary with fatness or leanness. They may be further affected by wear, gout or age. But such changes appear in the pattern as a whole; never in the form or correlation of its constituent parts. The pattern may become altered in length or breadth by hard wear of a peculiar kind, but the number of ridges that concur in forming the pattern, their embranchments, their archings, loops and other minute characteristics, are not subject to change. They are indestructible as the finger.

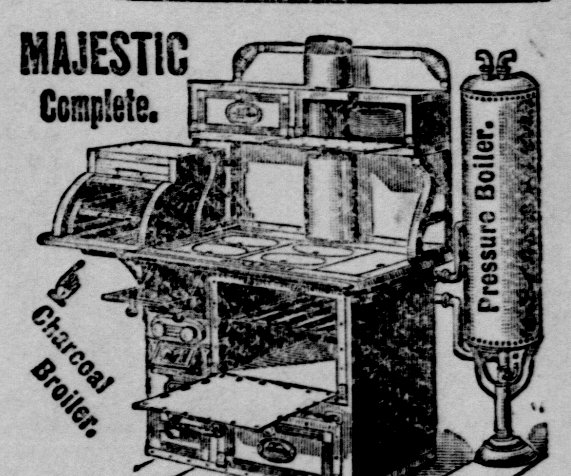
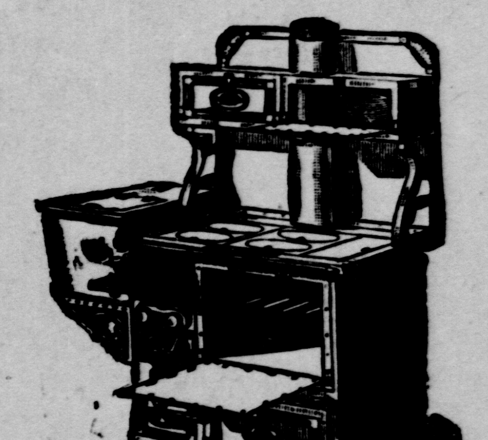
Stop and Reason!





Why you have to pay large bills for fuel

when you cook only three times a day! One-half your fuel is used to heat up a lot of cast iron, stove cement, putty and nickel ornaments, that have been put together and called a stove. Another part of the fuel goes up the chimney. The balance you cook with. But in a **MAJESTIC STEEL RANGE** the heat is applied through a double stretched steel oven, the loss of heat reduced to a minimum, and your fuel bill one-half.

The range is in operation daily. Biscuits and coffee served to all.

WOMAN GOT THE CASH A PROPHET WANTED

MRS. TAYLOR BEATS THE BOGUS MESSIAH.

John H. Nicholson's Little Girl Dangerously Ill—Many Janesville People Attended the Monona Assembly—Candidate Teeter Worrying Over Would-Be Sheriffs—Local News.

SINCE the tent evangelists opened their show here Janesville people have had more interest in Schweinfurth and his methods. Recently Mrs. Waite, one of the angels at Schweinfurth's heaven near Rockford, was called to Durham, Canada, by the dangerous illness of her wealthy father. The bogus lord bought her a ticket and fixed it to dupe her out of her share of the property. Mrs. Taylor, of Rockford, a sister of Mrs. Waite, heard of the scheme of the pseudo Christ and quietly followed her to the bedside of her father to whom she exposed the whole plot. Mrs. Taylor has returned from Canada and neither Schweinfurth nor Mrs. Waite will get a penny of the old man's gold.

JOHN H. NICHOLSON was summoned to Monroe this morning by the dangerous illness of his daughter Maud, who, with her mother are the guests of Mr. Nicholson's parents. The little one is suffering from a congestion of the right lung and rheumatism of the stomach and heart. A message from Mr. Nicholson this afternoon said that while the child's condition was very critical there was some hope. Mrs. Nicholson's mother, Mrs. Griffin, accompanied him to the sufferer's bedside.

IT wasn't ice cream weather last night, but the Russian tea served at the Trinity church social on N. P. Bump's lawn was in great demand. This was served at several booths about the grounds, which were illuminated with Chinese lanterns. Pretty gypsy girls told fortunes in proportion to the size of the silver pieces with which their palms were crossed. Smith's orchestra discoursed some excellent music.

Charley C., who was distanced here was one peg under Rocker in the summary.

Remember you can get a bargain to-day and Saturday at Lloyd & Sons, 57 West Milwaukee street. We must have more room for fall goods. Come in, and prices will make you buy. Lloyd & Son, 57 Milwaukee street.

Now is the best time to go and see land in Clark county, for sale by the C. S. Graves Land Co. The present price will be the lowest for which it will ever be offered. Why rent a farm or pay a high price for it when you can buy of this company at only $7.50 per acre, easy terms.

HOW MOULTON RAN A SWITCH ENGINE.

SUPERINTENDENT'S WORK IN THE STRIKE.

He Toiled and So Did Several Other Officials on Both the St. Paul and the Northwestern—Strike Leader Heathcote Is Known Here—Broderick Night Yard Master.

Running a switch engine, firing a road engine and several other railroad accomplishments figured in Superintendent F. R. Moulton's strike experience at Chicago. As soon as the C. & N. W. men quit the superintendent volunteered for any service they wanted and he got it.

"We did not see much serious trouble," he said this morning "or we were in a part of the yards apart from the worst disturbances. I see by the papers that Heathcote, the head and tail of the Pullman strikers says that the strike is not yet over and that the men who have gone back will soon be out again. I knew Heathcote when he worked in the Northwestern shops at Fond du Lac where the first Pullman car was built. He was cordially hated by all the men and when his father-in-law died and left $3,000 to one of Heathcote's children, it was with the death whisper on his lips to 'put the money where Heathcote could not get it.' Heathcote was getting four dollars a day at Pullman but since the strike he has written to Fond du Lac relatives for money. He did not get it. Their answer was to 'go to work and earn it.'"

St. Paul Officials Worked, Too.

Mr. Moulton is not the only official who did general work. W. W. Winton, of the Chicago, Milwaukee & St. Paul, was in Janesville to-day. Mr. Winton is connected with the freight department, but during the strike he fell to coupling cars and making up trains as gracefully as could be. W. W. Heafford, the district passenger agent of the St. Paul, was also a Janesville visitor to-day, and when asked if he had any "practical" experience during the late trouble he said:

"No, I volunteered my services as a switchman, but the superintendent told me to hold up my hands. He looked them over and said 'you won't do; you've got all your fingers.'"

R. D. Stone is again at work as operator at the Northwestern depot, having returned from an extensive pleasure trip in Canada and through Northern Wisconsin. Mrs. Stone accompanied him and their trip was a very enjoyable one.

Ed Broderick Made Yardmaster.

Ed. Broderick is now night yardmaster for the Chicago & Northwestern Company, taking the place of Bert Winans who is at work for the company at Chicago.

Yardmaster David Griffin of the Chicago & Northwestern, has a new horse. Yesterday a racing man was passing through in a car that had to be held here a short time. Spying in the yardmaster something that looked "horsey" he proposed a trade. David was willin' and before the train left the yardmaster owned a pacer who went a mile at North Greenfield yesterday in 2:17¼ and the horseman had a new sorrel animal and some cash beside. The trade was made without taking the blanket from the pacer but when Mr. Griffin comes up the street with him the people will think that a train has broken lose, for a seventeen gait is pretty fast, off the race track.

THE Chicago & Northwestern "air brake instruction car" is here and an expert is showing the men how the brakes work.

The rush to Monona Lake has kept Ticket Agent Samuels of the C. M. & St. P. on the jump for a day or two past.

Waste Nothing That Can Be Saved.

Housekeepers say, "I have a good stove now, but will buy a Majestic Steel Range later," and keep right on wasting fuel, imperfectly baking, and only partly heating water, when they would make money by throwing the "good" stove outdoors and buying a Majestic Steel Range at once. Special inducements while the factory salesmen are here.

A stag party of impressive proportions went up the river this morning to take part in a regular old style New England clam bake. Mine host, E. D. Miller, of the Myers, was the steward, with an able corps of assistants. Four barrels of fresh clams occupied a place of honor in the bow of the steamer, and among the men for whom seats were reserved were F. M. Marzluff, John Winans, Hiram Merrill, E. D. Miller, W. T. CHANGE IN U. S. EXPRESS OFFICE

A. E. Ellengen Resigns and H. B. Marble Succeeds Him as Agent.

H. B. Marble, of Wilmington, Ohio, has been appointed agent of the United States Express Company, for Janesville, he taking the place of August Ellengen, who has held that position since S. E. Neighbors resigned some time ago. Mr. Ellengen preferred the work "on the road" and so resigned the agency for a good run as messenger. Mr. Ellengen made many friends in his work as agent, all of whom will wish him success. Mr. Marble comes well recommended and Janesville people are always ready to welcome a stranger within her bounds.

A. C. THORPE AN ACTIVE CANDIDATE

He Has By No Means Withdrawn From the County Canvass.

EDITOR GAZETTE:—It has been reported several times that A. C. Thorpe of Evansville, has withdrawn from the county canvass. This is not the case. Mr. Thorpe will be a condidate for county treasurer and a very active candidate. He is recommended by his sterling republicanism, by the fact that he is a sound business man and not an office seeker, and by the fact that the town of Union has not been represented on the county ticket since Daniel Johnson ran for sheriff.

NO TENT MEETING HELD LAST NIGHT.

EVANGELISTS ARE SAID TO BE PLANNING A MOVE.

They Are Prospecting In Milton Today and If Things Seem to Look Favorable They Will Try Angling For the Dumb Devils of that Town.

The Gazette feels better today. Owing to the fact that the "tent meetin' was abandoned last night the paper wasn't roasted. The chairs and organ were removed from the tent last night and today the two evangelists went to Milton. This led many people here to think that the meetings here were at an end. If such is the case the Gazette wishes the workers success in their new field and hopes that all people who are possessed of a "dumb devil" and $35 in cash will go forward and be relieved. As a reference there may be offered a Janesville man who possessed a devil, which, to use his own language, "prevented him from controlling his stomach for seven years." After the fish hook of the evangelist baited with the bait of humility, reached the imp, the subject "could control his stomach at will, and has done so ever since." Milton's bedeviled cripples should say hallelujah.

WEALTH THEIR KEY TO SOCIAL REALMS

AMERICAN WOMEN WHO SHINE IN EUROPE.

Mrs. Mackay's Wealth Causes Royalty to Dance Attendance to Her Whims—The Mesdames Belvin, Williams and Ronalds Are Social Favorites.

WHEN ONE STOPS to consider that the best English society—and "best" when applied to society is the superlative of rank and power, not of morals—is the most splendid, most exclusive, most icily unresponsive and most self-sufficient in the world, it should be a matter of national pride that American women have made their way in it so successfully.

The plain American citizen with genuine republican spirit is inclined to lose patience with his countrymen when they show themselves eager to go to England and hobnob with royalty, or the friends of royaly, or the friends of the friends of royalty—according to the "pull" they have. He is inclined to sneer at them as un-American tuft-hunters, and laugh derisively at the efforts they make and the money they spend to wedge their

MRS. MACKAY.

way into the social holy of holies where they can catch recognition from the eye of a prince and rub elbows with a lord. But he is the very one who would soonest feel his national pride wounded if our ambitious American women couldn't "hold their own" among the swells on the tight little isle; and he is the one who, when his women folk go abroad, values the letters they carry to Americans who are securely established in London society even as Solomon valued a virtuous woman.

There are many lovely American women securely established in English society. Most of them, however, while their popularity is due to their charms, owe their social position to their husbands. They married Englishmen. Such are Mrs. Joseph Chamberlain, who was Miss Endicott; Mrs. Naylor Leyland, who was a belle in England as Miss Jennie Chamberlain; Lady Randolph Churchill, who was Miss Jerome; the Duchess of Manchester, who was Miss Yznaga; Mrs. Arthur Paget, who was Miss Stevens; Lady Hesketh, who was Miss Sharan, and Mrs. T. P. O'Connor, who was pretty Bessie Paschall of Texas, and Washington, and whose "Englishman" (like the old woman's duck that was a drake) is an Irshman. But those who make the bird of freedom flap his wings softly with repressed exultation are the ones who attain their position by conquest.

Probably the surest, highest, and most powerful position an American woman has attained by her own efforts in English society in many a day is that which Mrs. John W. Mackay holds. Some worlding has said that the crucial test of social position is getting people who are "somebody" to accept your dinner invitations. Mrs. Mackay stood that test royally. A couple of years ago she gave a din-

MRS. RONALDS.

ner in her splendid London home, the invitations to which were accepted by the Prince and Princess of Wales, as well as a goodly company, every one of which was distinctly and undeniably a "somebody."

The women who can dine the future king and queen of England, it is safe to say, commands the situation.

Mrs. Mackay has lived abroad for nearly twenty years, and her social importance in Paris is the same as in London. She has had unbounded wealth at her command—enough to give her the power Monte Cristo exulted in; but it takes more than money to succeed in society as she has done. She is a woman of exquisite tact, keen penetration, courage, and pride, and possesses the organizing powers of an adriot general, as was fully proven by the way she met the slanders circulated about her several years ago. When her enemies were busiest trying to undermine her power she fortified her position in a way to make it impregnable by giving the dinner already mentioned, thus getting the cachet of the prince and princess of Wales—an open-seasame in Paris as well as London.

Mrs. Ronalds', whose house on Cadogan square, not very far from Nellie Grant's, is one of the desirable ones to be invited to, has been away

MRS. BELVIN.

from America so long that even her former intimates forget that she isn't an Englishwoman. She is an exceptionally handsome woman of the brunette type, and can make conquest of man or woman with a single one of her winning smiles. She is a leading light in swell musical circles and can muster as much talent in her drawing room on one of her evenings "at home" as Abbey can in opera house. It is at her musicales that Sir Arthur Sullivan can be heard and seen.

Mrs. William Wayne Belvin is well known in society in San Francisco, New York and London. Mr. Belvin's business interests make it necessary for him to spend a good part of every year in London, and Mrs. Belvin always accompanies him. She is a lovely woman and the daughter of a famous southern belle and beauty; so, as is said about our bad traits, she came by her loveliness honestly. Her mother was Eliza Morgan of Kentucky, the daughter of Gen. Daniel Morgan. She married Capt. John McMullin of Texas and went to California with him, where they reared a family of handsome daughters. One of these is Miss Belvin. Another, Lilo, was a belle in Washington before her marriage to Dr. Perrin of Kentucky.

Mrs. George B. Williams was a bright social light in Washington until her husband was sent abroad to act as foreign counsel of the New York Life Insurance company. She was one of Mrs. Harrison's intimate friends, and was one of the most frequent and

MRS. WILLIAMS.

most ceremonious visitors at the white house while the president's wife was living. Mrs. Williams has the aplomb, tact and versatility of the trained society woman. When she gave up her Washington home, that had become a social center, to go abroad, she thought it was only "to be with her husband," and that social life would not be theirs until they returned. But whoever takes a prominent part in the cosmopolitan society at the capital is pretty sure to meet friends in any city in the world. So Mrs. Williams did, and before they were fully aware of it they found themselves fully launched in London society.

IMELDA MILLER.

The Electrolier.

Electrolier is a word that has found a place in the business world, and even in some dictionaries, though the great public, with the characteristic conservatism that held on to "chandelier' after oil and gas had displaced candles, still refuses to adopt the new word. As to the thing itself, it is a puzzle to decorators, since there is a genuine difficulty in producing just the right form so long as people skeptically demand a double instrument that can furnish gas when the electric current fails to run.

WELCOME WORDS TO WOMEN.

Many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another with pain here or there, and in this way they all present to their easy-going doctor, separate diseases, for which he prescribes, assuming them to be such, when, in reality, they are all only *symptoms* caused by some womb disorder. The suffering patient gets no better, but probably worse, by reason of the delay, wrong treatment and consequent complications. A proper medicine, like Dr. Pierce's Favorite Prescription, *directed to the cause* would have promptly cured the disease.

Mrs. HARRY TAPPAN, of *Reynolds, Jefferson Co., Neb.*, writes: "For two years I was a sufferer. A part of this time had to be carried from my bed. Was racked with pain, had hysteria, was very nervous, no appetite and completely discouraged. A few bottles of 'Favorite Prescription' effected a perfect cure." Sold by all dealers in medicines.

One View of It.

Some children were overheard discussing the Sunday services in the fashionable church at which the family worshipped.

"Well, now," said the seven-year-old boy, "I must say I should like to know what the sermon is for."

Not Exactly Sympathetic.

HIS FIRST OF THE KIND.

A Hunter Tells How He Got His Initial Rhinoceros.

A hunter in Africa tells how he shot his first rhinoceros near Kilima-Njaro. He crawled along the grass till within fifty yards of the big beast. "Then," he says, "I raised my head, saw that some twenty yards farther on there was a tuft of slightly longer grass, and determined to get up to this before firing. However, just before we reached it some half dozen birds came from the direction of the other two rhinos and settled on our cow's back, but we eventually succeeded in reaching the tuft. The difficulty now was to get into a sitting position and ready to shoot without being seen by the birds. To do this I worked my legs toward the rhino as I lay on my side and gradually raised myself into a sitting position, but at that instant the birds saw me and flew up with their usual cry of alarm. At the same moment the rhino raised herself on her forelegs like a huge pig, I then realized that I was nearer than I intended to get—only about twenty yards separating us—but she did not appear to see me. As she remained sitting in this position, without moving my body, which I knew might attract attention, I stretched out my arm behind me for the 4-bore, but did not feel it at first, and thought that for once my faithful Ramazan had received rather a shock to his nerves on finding himself at such close quarters. However, he put it in my hand at last, after a delay of perhaps two seconds, which appeared to me much longer, and I quickly planted a bullet on the point of her left shoulder blade, which knocked her over. Reloading before I moved, I saw she was still down, but making desperate efforts to get up; but as she was lying on her left side, with her broken shoulder under her, she was unable to do so, and I ran up and dispatched her with a shot in the neck."
